splendid medical work should be read by every

man who is nervous and debilitated. Address

PROF. C. W. WOOD, MOORIS, CAL.

1874

**WE WILL COMMENCE OUR GREAT**

## DAILY RECORD-UNION

TUESDAY, JANUARY 24, 1888

The RECORD-UNION is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world. Outside of San Francisco has no competitor, in point of numbers, in its home and general circulation throughout the coast.

## SAN FRANCISCO AGENCIES.

The paper is for sale at the following places: San Francisco, San Jose, Santa Clara, San Leandro, Alameda, Berkeley, Oakland, San Francisco, Grand and Palace Hotel, New Market and Montgomery street, New Standard, and on all trains leaving and coming into Sacramento.

## TO-DAY'S LEADING NEWS TOPICS.

The Casher of a bank in Auburn, N. Y., has decamped with \$20,000 of its funds.

An attempt was made at a meeting in France to shoot Louise Michel, the female Anarchist. Senator Frye spoke at length in the Senate against Cleveland's free-trade message.

The trial of the contestants in the contested case of Theelie, by Justice Cushing, began.

Several California appointments are expected to be sent in to-day by the President.

The waiters strike in San Francisco has completely collapsed.

The Northern and Central Citrus Fair at San Jose was formally opened yesterday.

## THE PRESIDENCY OF THE UNIVERSITY.

The belief has been gaining ground steadily that there is greater need for business executive capacity in the President of the State University than for high scholastic attainments with limited executive ability.

If the choice had to be made between simple scholarship on the one hand, and business capacity with fair scholarship on the other, we apprehend that the judgment of the University men of to-day would be in favor of the latter.

It is announced that the State University Regents are about to offer the Presidency of the institution to Hon. Horace Davis, of San Francisco, who is widely and popularly known in the state, and has served it with distinguished ability at the national capital as legislator. In business life Mr. Davis has proved himself to be a thoroughly competent man of the broadest capacity. His scholastic attainments are of a high order, and combined with his executive abilities, eminently fit him to direct the temporaries of the University to the very best advantage for the State, and the highest good of the beneficiaries of this foremost of State educational institutions.

In public life Mr. Davis has manifested that political sagacity that is indicative of leadership and governing capacity, and of that rare and high trait which qualifies an executive to harmonize conflicting elements, and unify interests that have a common purpose.

It is to be hoped, therefore, for the good of the University that Mr. Davis will accept, for his induction into the office will mean the inauguration of a new era for the University. Mr. Davis's high character, his cultivated powers of observation, his breadth of view upon State questions, his devotion to the cause of popular education, his accord with the best thought of the day on progressive questions and his executive experience and proven administrative ability, bring him happily to the nearest approach to that rare combination of elements so desirable in the office he is to be asked to fill. It is not known that Mr. Davis will accept the trust. It is one of heavy burdens, exposure to the cross-fire of criticism, and calls for the undivided devotion of the occupant to the duty of shaping and directing the policy of the institution. But should he accept, we entertain the belief that he will impart to the University the vigor that characterizes him in public and business life, and that he will manage his affairs and discharge the duties of his post with such fidelity and executive wisdom as will answer every demand made for the proper filling of the office, while he will preside over the University in a manner to command the highest respect of the scholarly side of it, and the confidence of the Board of Regents.

## THE COMPLETION OF THE ROAD TO PLACERVILLE.

The completion of the railroad to Placerville is not many days distant. When the extension of the line was resolved upon the RECORD-UNION suggested that the completion of the road ought to be made memorable in local history by some proper celebration. The suggestion was received here and in Placerville with unanimous approval. At that time an excursion was proposed from Placerville to Sacramento, with the idea of the excursionists being entertained by the people of this city. Since then the sentiment has grown up that it would be far better to arrange for an excursion from Sacramento to Placerville. That is probably the wiser plan. It would be more satisfactory to the Placerville people, and give the entire population of the mountain city an opportunity to take part in the celebration of the event. It is not expected that the people of Placerville will go to the expense of feasting the excursionists. That would not be for a moment taken into account, but it would be the proper thing for the Sacramentoans who go up to be able to meet the citizens of Placerville in some convenient place of assembly for exchange of congratulations, and to listen to expressions relating to the importance of the event, from leading business men of both cities. It has already been announced that the society of El Dorado Pioneers, whose members reside in San Francisco and Alameda counties mainly, has resolved to run an excursion from Oakland to Placerville on the completion of the road, and that probably some 300 persons will thus make the trip. These pioneers ought not to be permitted to outdo Sacramento, nor yet could there be any objection to the two excursions being made on the same day, and thus make the event doubly memorable. No steps, however, have been taken here in the matter, but if anything is to be done, preparation should begin at once. Undoubtedly a good excursion of representative citizens can be gotten up speedily, and at very small cost per individual, for the trip to the foothills of the Sierras. There would be no other expense involved, except, perhaps, for the single item of music, and that would be comparatively a trifle.

The completion of the road is one of very great importance to Sacramento; it is scarcely second, indeed, to the interest Placerville has in it. It is to open up to our trade a region that has been practically closed, and which in agricultural, timber, mineral and horticultural resources is of the richest character. It may not be generally known that El Dorado contains a vast area of arable land, more is contained within the bounds of two or three other counties combined that might be named, and that its capacity for production of deciduous fruits, potatoes, most vegetables

and some grains is second to that of no other foothill county save in area. The county possesses one of the richest timber belts upon the coast, and which the completion of the railroad will bring into immediate and new importance. In water facilities there is no county in the State better capacitated. Its mineral wealth, once supposed to be exhausted, is in fact just beginning to be realized, and the promise is of a greater output of precious metal from El Dorado in the future than in the past. It is not unwarranted speculation to look forward to a very early day in which the population, earth yield, and industries of El Dorado will be trebled. For all the El Dorado region Sacramento is the natural depot of supply and trade center. The social relations between the people of the two counties are very cordial, and historically they are related by ties that are strong. The completion of the railroad, therefore, an event of great importance, and if it is allowed to pass unnoticed by some sort of local demonstration, it will be a reproach to us. The suggestion for an excursion is simple, feasible, economic and promises social features of a pleasing character.

## SOCIAL AND PERSONAL.

N. D. Rideout went to San Francisco yesterday.

John J. Hickman went to Willows yesterday morning.

L. Tozer and wife went below on the afternoon train yesterday.

## MISCELLANEOUS.

## FOREIGN TOPICS.

## MORE UNCERTAINTY ABOUT THE PRINCE'S MALADY.

Rupture Between Russia and Roumania—Louise Michel Loses Part of Her Ear—Etc.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

## STILL UNCERTAIN.

The Doctors Puzzled Over the Crown Prince's Malady.

BERLIN, January 23d.—The *Tageblatt* says that Dr. Mackenzie will return to San Feno next week. The report is that the Crown Prince's larynx exists a portion of the dead cartilage, which must be removed. An effort is to do this will be made by Dr. Mackenzie, and a committee that includes the Foreign Minister and the participation of Federal officers in the suppression of the votes of colored citizens. The resolution was adopted.

But the Foreign Minister, in a statement of the Western Union Telegraph Company against the postal telegraph bill, he said it was a very full presentation of the case, and that the International Committee desired that the communication printed and referred. So ordered.

Among the bills reported from committees and placed on the calendar were the following:

For the admission of the State of Dakota and the organization of the Territory of Lincoln. A minority report also is to be presented.

For the relief of settlers on school lands in Washington Territory.

From the Committee on Foreign Relations, reported back without amendment the House joint resolution relating to the admission from the State of Washington to participate in the International Exhibition at Melbourne to celebrate the founding of New South Wales. Passed.

Chancery—The Foreign ministers calling on the Secretary of the Navy for a change in the cost, etc., of the plans, designs, drawings and specifications of ships or engines obtained abroad; as to changes made in the original designs of the ships, Boston, Atlanta and Dallas, and to the contracts made for naval vessels, machinery and arms since March 4, 1888.

The resolutions were laid over and ordered printed.

In the House.

WASHINGTON, January 23d.—An attempt to kill Louis Michel was made at the Hotel Metropole, Paris, on the 19th, as reported at a meeting of Anarchists, when a revolver was pointed at the speaker. The revolver fired and the bullet passed through the head and the lobe of one of her ears was torn away.

Lucas had a narrow escape from lynching at the hands of the infuriated Anarchists, and it was only the timely arrival of the gendarmes that saved him. He was locked up.

LATER.—An examination shows that the wound received by Louise Michel at Harve might not be of a serious nature.

## BECOMING BOLD.

French Royalist Whipping It Up for Comte de Paris.

BORDEAUX, January 23d.—A Royalist meeting was held here to-day, at which were present fully 5,000 persons. M. Herve delivered a stirring address, in which he said that since Grey left the Constitution he had not been able to get a hearing.

The Comte de Paris, who had been told that covered boxes were laid for 900, a toast was offered to the Comte de Paris amid cries of "Vive le Roi!"

## TROUBLESOME WATERS.

French Fishermen Kicking Up a Row in Canada.

[Copyright, 1888, by the California Associated Press.]

MONTEBELLO, January 23d.—Semi-official authority here has reported that the men over the French fishery interests in Newfoundland is about to take a turn.

French fishermen, since the passage of the bill, have consulted their Government and the Canadian Government, and support is given to them in their demands.

Both English and French fishermen are engaged in preparing to use force to protect their interests.

Governor Lamot of St. Pierre, and the French Admiral of the station are now in France in consultation with the French Government.

## FISHER'S RESTAURANT.

How the Manitoba Minstrel Kept Down a Treasury Surplus.

[Copyright, 1888, by the California Associated Press.]

OTTAWA, January 23d.—Senatorial reports respecting the financial condition of the Manitoba Government have received here, and the condition of the Manitoba for the year appears to have been wholly swallowed up by the Government just gone out of office, leaving the Treasury almost empty, the books and accounts are being investigated.

It is charged that false official accounts of the financial condition of the provinces have been made annually for the past three years, and that the whole of the vouchers, and trust funds are in such a state of confusion that no one can make anything of them.

Not a single entry has been made in the treasury cash book for a year. When the treasury cash book was given to the Treasury, it was empty, and the Government was carried on with funds supplied by the Merchants Bank to the extent of \$35,000. The Ministry paid themselves salaries up to February, before going out of office.

## THE FISHERIES QUESTION.

England Wants Canada to Yield to the Claims of Americans.

[Copyright, 1888, by the California Associated Press.]

OTTAWA, January 23d.—It is semi-officially stated here that the Home Government have urged the Dominion Cabinet to make such concessions on the fishery question as will satisfy the English. It is mainly intimated that while the demands of Canada are admitted to be of importance they must not be allowed to prejudice the larger international interests involved.

Both English and French fishermen are yielding in the part of the Canadian Government, under the usual pressure from Downing-street.
